## DID YOU KNOW...

### HISTORIC BEGINNINGS

Home to the birthplace of the first personal computer, BRiC is also the location of one of the biggest business deals of our time. A young Bill Gates secured a licensing deal with IBM on campus in the 1980s for Microsoft's operating system, known as "Project Chess."

### HOME TO FORWARD THINKERS

BRiC is a 1.7 million-square-foot office park, home to industry disrupting visionaries including Canon, Modernizing Medicine, Bluegreen Vacations, Kroger and Boca Raton Regional Hospital.

### TRANSFORMED AS A COMMUNITY DESTINATION

CP Group has revitalized BRiC by developing Google campus-type amenities on campus, including a wellness center, autonomous grab and go, two coffee shops, and event space now available for public bookings.

## ABOUT ART ON BRiC WALLS

Art on BRiC Walls is an immersive self-guided tour of art exhibits lining our common area corridors to support our community and provide a platform for local artists to showcase and sell their work.

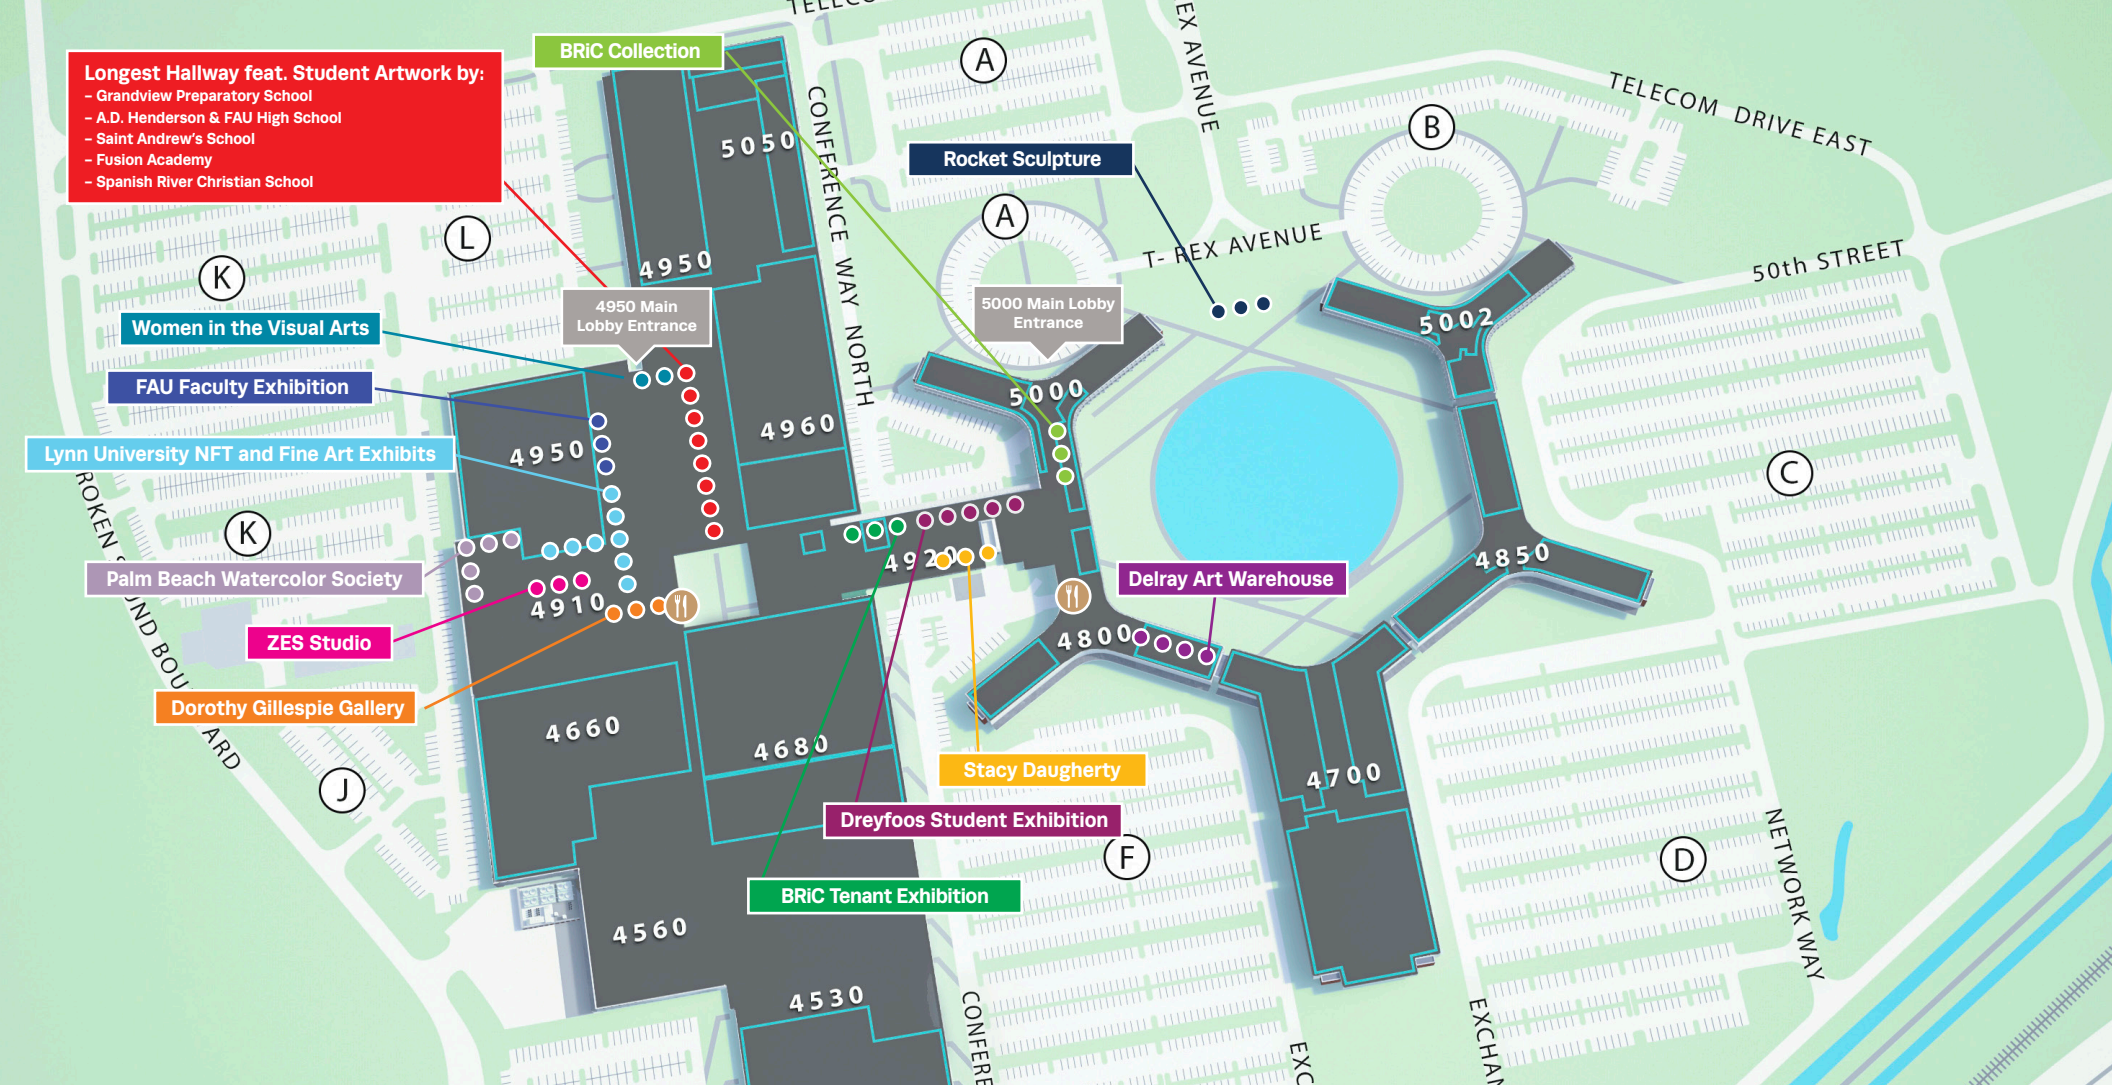

BRiC proudly showcases local talent sourced from our vibrant art communities, collaborating with Palm Beach County museums, schools, colleges, and art organizations.
